

Covid & post-lockdown

LifeClubs pick-me-up solutions

To help with the challenges we're all facing, LifeClubs is offering live, interactive 60-minute webinars for you and your teams to be run both during lockdowns and post-lockdown. We want to enable you all to feel happier and more productive, rather than fed up with the monotony of working from home or finding life overwhelming and it hard to balance all your commitments.

Using our fun, inspirational and highly interactive webinars, we will support and connect you online to your colleagues, many of whom may be feeling the same way (or worse) than you.

In each webinar we aim to give you our trademark *Lifeclub Moments* – simple epiphanies that create and support positive mental health and will bring about lasting changes in your life and work.

You choose which workshops you want to run from either list, each carefully selected from our 60+ workshops to help you and your colleagues master life in a Covid or post-lockdown world. If you can't see what you're looking for, please do ask to see our full list.

If you'd like to explore running these webinars live or adding them to your intranet, please contact nina@lifeclubs.co.uk
