

## **Aim:**

We first worked with VMLY&R in 2013, when they were G2 Joshua.

Their aim then was to find workshops to help them achieve their learning and development objectives – and get everyone energised.

## **Solution: 121 coaching & workshops**

Our brief was to create an excitement and buzz and inspire creativity, which we love doing. We also started Speed coaching.

We continue to run executive and speed coaching for VMLY&R – the same delightful People team, new company name.

## **Feedback:**

*Really valuable session, both professionally and personally*

**Workshop participant**
